■ **Sahara**

■ **Salt & Pepper**

■ **Shawnee Red**

■ **Sky**

■ **Smoke**

## Description & Key Benefits

Color Quartz flooring is a durable and attractive seamless flooring system. It incorporates colored quartz aggregate in a tough epoxy matrix and is sealed with specialty formulated clear epoxy or polyurethane. The high strength surface provides excellent wear resistance, sanitation and chemical resistance. Surface texture can be varied from a nearly smooth finish to an aggressive slip-resistant surface for wet areas.

## Common Applications

- Food preparation areas
- Laboratories
- Health care facilities
- Manufacturing areas
- Public bathrooms
- Correctional facilities
